9 The outbreak of COVID-19 pandemic across the globe and in India has contributed to a significant decline and volatility in the global and Indian financial markets and slowdown in the economic activities. The nation is now going through the second COVID wave, and this time the impact is more severe and has hit most of the rural districts of the country. The effects of the pandemic on the different Agri sub-sectors have been varied given the different nature of each sub-sector. Based on management's assessment around 99% of Samunnati's net portfolio under Low to Medium risk basis factors like product nature, market dynamics and resilience to COVID-19 situation.

The Company's customers have been largely engaged in 'essential' sectors like dairy, staples (grains, pulses, spices, sugar, edible oils), fruits & vegetables, poultry & seafood and other sub-sectors such as tea, coffee, rubber, red meat, seeds, ready-to-eat foods, etc. As on date, nearly 100% of the Company's portfolio is oriented towards these essential sectors. However, in the loan portfolio, the Company believes that HORECA (Hotel, Restaurants and Catering sector) will require additional focus for risk assessment. Although the market activity level for HORECA has been significantly higher than during the first wave of COVID in 2020, the local lockdown situation, social distancing norms and restrictions to operate at reduced capacities will be a key factor resulting in lower-than-normal demand for HORECA for first half of the financial year ending 31 Mar 2022. Post this also, the Company anticipates that period of recovery for this sector might take longer than expected. However, it can be noted that the specified sector is less than 2% of the total loan assets.

The Company has taken adequate safety measures to protect its employees and also will ensure vaccination for its field staff on priority basis which will help company to continue its business operations with minimum disruption.

Considering the unique and wide spread impact of COVID-19, the Company has estimated credit loss ('ECL') allowance towards its loan assets and managed portfolio, based on the information available at this point in time including economic forecasts. The Company believes that it has considered all the possible impact of the known events arising out of COVID-19 pandemic in the preparation of these financial statements.

The underlying forecasts and assumptions applied by the Company in determination of ECL allowance are subject to uncertainties which are often outside the control of the Company and accordingly, actual results may differ from these estimates. Any potential excess/shortfall based on actual experience will be adjusted in the relevant period in future. The Company will continue to closely monitor the impact and any material changes in both the internal and external environments. The Company has been duly servicing its debt obligations. The Company's Management believes that Capital Adequacy and Liquidity position remains strong and shall continue to be an area of focus.

- 10 The Chief Operating Decision Maker ('CODM') reviews the operations at the Company level. The operations of the Company fall under 'financing activities' which is considered to be the only reportable segment in accordance with the provisions of Ind AS 108, Operating Segments. The Company operates in a single geographical segment, i.e. domestic.
- 11 The Company does not fall under category of large corporate entity pursuant to SEBI Circular No. SEBI/HO/DDHS/CIR/P/2018/144 dated November 26, 2018.

If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Statement or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Other Matters

12. The Statement includes the financial results for the half year ended 31 March 2021, being the balancing figures between the audited figures in respect of the full financial year and the published unaudited figures for the half year ended 30 September 2020, which were subject to limited review by us.
13. The Company had prepared separate financial results for the year ended 31 March 2020 prepared in accordance with Accounting Standards prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended) and other accounting principles generally accepted in India ('previous GAAP'), on which we had issued auditor's report dated 02 July 2020, wherein we had expressed an unmodified opinion. These financial results have been adjusted for the differences in the accounting principles adopted by the Company on transition to Ind AS, which have also been audited by us.
14. The Statement includes figures for the corresponding half year ended 31 March 2020, which are the balancing figures between the above adjusted audited figures in respect of the full financial year ended 31 March 2020 and the unaudited figures up to first six months of the previous financial year, which have been approved by the Company's Board of Directors but have not been subjected to audit or review. Our opinion is not modified in respect of this matter.
